	SECRET, The secret secr
	12 May, the Artillerie Kasa (5341), Perleberg, was occupied by a 25X1 guard detail. A sentry in front of the installation wore red-bordered black epaulets.
7.	Between 1 and 20 May, the Artillerie Maserne (5341), Perleberg, was occupied by a guard detail. Colonel Bragin (fnu) had returned from leave. Colonel Kusnettas (fnu), supply officer of Unit Bragin, allegedly had been transferred to the army headquarters.
8.	On 12 hay, a Dumbo-type radar set was observed in the northwest corner of Fliegerhorst Kaserne (5342), Perleberg. A radar set of the same type had been observed in Gardelegen. Four radio cars, 2 tents and about 20 troops wearing blue-bordered black epaulets with signal insignia were observed with the radar set.
9.	Between 1 and 20 May, the Fliegerhorst Kaserne, Perleberg, was occupied by units of Lieutenant Colonel Melnikov and Captain Shumelkov. The dependents of the officers stationed in Camp Schweinrich were also quartered in the 25X1 camp.
10.	On 8 May, Alte Reiter Kaserne and Neue Reiter Kaserne (5261), Lucylasiust, were only lightly occupied. About 15 percent of the windows of the installation were lighted after nightfall. No training was observed in the installation. A soldier wearing blue-bordered black epaulets with engineer insignia was 25X1 seen in the town.
11.	On 8 May, about 20 percent of the windows of the installation at the Techentin airfield (5262), Ludwigslust, were lighted at dusk.
12.	On 28 May, the Techentin airfield was not occupied to capacity. Five T-34 25X1 tanks were seen through the open doors of the sheds. Eight soldiers wearing red-pordered black epaulets with tank insignia left the installation. About 80 individual soldiers were seen in the barracks area. Four tanks entered the installation from the barracks training area.
13.	On 27 May, the Alte Kaserne (5321), Parchim, was occupied by only a small guard detail and the Neue Kaserne (5322) was occupied by about 250 troops wearing red-bordered black epaulets. Three platoons, totaling about 110 soldiers carrying light infantry weapons, left the latter installation for fermation drill at the training area. Trucks 25X1 which carried coal, entered the installation.
14.	No unloadings were observed at the Wittstock and Dranse railroad stations on an25X1 after 5 May. Numerous tank tracks led from the Dranse railroad station toward Camp Schweinrich, which was occupied by large units.
15.	On 11 May, Camp Schweinrich was occupied. We training or firing was observed. 25X1 The Schweinrich-Zechlin road was no longer restricted. Motor vehicles were seen en route to the camp.
16.	Prior to 4 June, Camp Schweinrich was occupied by tank units. On 14 May, 25X1 all approach reads to the camp were blocked by barriers guarded by sentries. Motor vehicles
	were observed on that day. Un 20 May, 8 T-34 tanks, 2 SP guns, 2 armored personnel carriers, 8 trucks towing 120-mm morters and personnel carriers and 16 trucks entered the Neu-Glienicke area from the direction of Schweinrich and took positions in Jagen Nos 92 and 109. After a 5-minute fire at targets in Jagen Nos 95, 96 and 121, the column left toward the north. On 27 May, the same units were seen in a simulated attack with live ammunition in Jagen Nos 98 and 104 in the Hammelstall area. On 1 June, motor

25X1

SECRET,

25X1 were seen entering Camp Schweinrich. The newly constructed buildings in the camp had been occupied by officers' families. 3 On 1 June, advanced combat practice firing with small arms of Alt-Lutterow. Eight trucks 25X1 were seen nearby. On 2 June, 200 officers, who arrived in trucks and sedens, inspected the Hammelstall and New-Glienicke 25X1 subsequently left toward kneinsberg and Meurupp n 25X1 this column left for Schwerin on 3 June. 4 Between 13 May and 4 June, no firing practices in the Rheinsberg-Zechow-Braunsberg area were observed. The guard detail of this area was stationed in Zechow. Between 13 and 21 May, bombing from MiG-15s was practiced over the training area and its vicinity. The practice caused large forest fires. 25×1 Comment. the 590th Mtz Kille Regt and the 780th Gun Arty Regt of the 207th Mtz Rifle Div were located in the Fliegerhorst Kaserne prior to late May. These units of the division, including the unidentified Mtrcl Bn stationed in Remonteschule, also stayed at their quarters during preceding summers, with elements being rotated to exercises. Except for the high strength figure and the truck carrying square beams, the information fails to furnish indications for the 390th Indep Engr Bn of the LXXIX Mtz Rifle Corps assumed stationed in Remonteschule. After early May, however, the battalion can be carried at the Bittkau training site. The barracks installation south of Staats is possibly occupied by units of the above-mentioned division from Stendal. 25X1 Comment. In late April, the units of the 18th Mech Div had left their three posts for the Wittstock troop training grounds. A Dumbo-type radar set in the Fliegerhorst Kaserne in Ferleberg is reported for the first time. The officers observed at the post are known. The Techentin airfield is apparently still occupied by the 63d Tank Tng Bn (UC). It has been observed throughout the zone that the tank training bat alions remained at the posts. The Neue Kaserne, Parchim, is probably occupied by a major rear detail of the 60th Mech 25X1 Comment. The transfer to the Wittstock troop training grounds of elements of the 18th Mech Div was completed by 5 May. Training probably started in mid-May and extended as far as the Neu-Glienicke area, which, so far has been used for firing practices exclusively by units of the 12th Gds Tank Div. 25X1 , the T-34 tanks observed on 26 May, belonged to the 33d Tank Regt (US). The quartering in troop camps of Soviet dependents has also been reported from other training grounds in East Germany. 25X1 content. The officers observed in early June may have belonged to the IX Mtz Rifle Corps or the 94th Gds Mtz Rifle Div from Schwerin. The motor vehicles, however, belong not only to the Third Shock Army out also to the 56th Motor Trans Regt of the GOFG, units of which 25X1 conducted advanced combat practice firing north of Alt-Lutterow on 1 June. 25X1 elements of the resiment transferred from Kummersdorf to Witbstock 25X1 which was observed passing through Oranienburg 35**X**1 Units of the regiment presumably were to be rotated to the Wittstock troop training grounds for short-term advanced combat practice firing. 25X1
